

## Serving Those Who Serve in Uniform

Early Autism Project (EAP), Inc., provides comprehensive TRICARE-approved services to children and their families in their homes, in EAP clinics, in schools, in their community and on or near their military bases. EAP is a leading provider of Applied Behavior Analysis (ABA) therapy, which is widely recognized as an effective, evidence-based treatment for autism and is endorsed by the U.S. Surgeon General and American Academy of Pediatrics as the treatment of choice for autism.

Early Autism Project (EAP), Inc., works with military families throughout the country to offer the highest quality of intensive, research-based behavioral treatment for children and young adults between the ages of 20 months and 21 years with autism spectrum and related disorders.

### About Applied Behavior Analysis

According to Autism Speaks, Applied Behavior Analysis fosters basic skills such as looking, listening and imitating, and complex skills such as reading, conversing and understanding another person's perspective. ABA also helps reduce behaviors that make it difficult for students to learn. Studies indicate that the earlier children receive ABA therapy, the more gains they make.

### ABA Services

EAP works closely with parents and educators to develop customized ABA therapy programs, and equips each child's home, clinic and/or school team with the training and supervision necessary for high-quality, consistent teaching and behavioral intervention. Treatment plans are developed and monitored under the direction of a Board Certified Behavior Analyst (BCBA) or a Board Certified Assistant Behavior Analyst (BCaBA).

EAP provides ABA services to all TRICARE beneficiaries through the Comprehensive Autism Care Demonstration (ACD). This coverage includes a functional behavioral assessment, development of an initial behavioral treatment plan, and analysis and updates of the plan.

### Military Family Services

EAP understands the unique needs of military families and can continue to provide clinical therapy if a permanent change in station occurs.

EAP values America's service men and women and offers employment opportunities to current and former members of the military and their families.

### EAP's Military Families

EAP currently provides services to military families stationed at:

#### Florida

MacDill AFB  
U.S. Marine Corps Reserve Center

#### Georgia

Fort Gordon  
Marine Corps Logistics Base  
Moody AFB
